Purchase/Eligibility Info: (for qualifying LED or CFL fixtures and fan light kits - see chart below)

Brand/model of ENERGY STAR® fluorescent or LED fixture/fan light kit	No. of lamps per fixture	Wattage of each lamp	Quantity of fixtures purchased	Rebate requested (\$20 per fixture or ceiling fan light kit)

Eligibility Chart:

Fluorescent (CFL) Fixtures and Ceiling Fan Light Kits		LED Interior Lighting	
<p>Eligible (use this form): Hard-wired fluorescent fixtures* These use pin-based CFLs only; not screw-base or halogen lights. <i>Look for lighting fixtures that have the ENERGY STAR label on the packaging.</i></p>	<p>Eligible (use this form): New ceiling fans with light fixtures* Ceiling fan light kits (for installation on existing fans)* Ineligible: Any ceiling fan without light fixtures.</p>	<p>Eligible (use this form): Recessed downlights*</p>	<p>Ineligible On This Form (Contact CFU for other application forms & incentives): LED Exit Lights Desk Lamps Under-cabinet kitchen lights Cove Lights Pendant-mounted downlights Exterior Lighting: Wall-mounted porch lights Bollards Surface Mounted lighting: Directional Heads Downlights Ceiling mounted with diffusers</p>

* Light fixture or fan light kit must be ENERGY STAR-qualified (use pin-based CFLs). Currently, there are no ENERGY STAR qualified fixtures that accept screw-base CFLs or incandescents.

Acceptance of Program Terms and Applicant Signature

Applicant Certification: The undersigned agrees that the stated energy efficiency measure(s) is (are) installed and in operation at the job site address listed above, and that the information contained in this application is accurate and complete. I have read and agree to the Terms & Conditions on Page 2 of this application. I agree to indemnify, defend, hold harmless and release CFU from any claims, damages, liabilities, costs and expenses (including reasonable attorneys' fees) arising from or relating to the removal, disposal, installation or operation of any equipment or related materials in connection with the programs described in this application, including any incidental, special or consequential damages.

CEDAR FALLS UTILITIES

2011 RESIDENTIAL CFL FIXTURE AND LED FIXTURE REBATE PROGRAM TERMS & CONDITIONS

- Applicant must be a current Cedar Falls Utilities (CFU) customer and CFU must supply the primary energy to the equipment for which the cash rebate is being paid (unless otherwise noted on rebate application form).
- If a new construction home is eligible for CFU's 5 Star Rate Discount for new construction, the home is not eligible for the rebates on this application form.
- In no event will rebate exceed the pre-tax purchase price of an eligible fixture or fan kit.
- Incentives are available on a first-come, first-served basis. CFU may modify or end any cash rebate program at any time without notice. Neither pre-approval of a project, nor any other action by CFU, entitles applicant to a rebate payment until and unless this application is approved by CFU.
- Rebate amounts, energy efficiency requirements and property-type restrictions vary with the project type. Program-specific requirements are stated on Page 1 of this application form and incorporated by reference.
- Purchase and installation must be completed between February 1, 2011 and January 31, 2012. Equipment or improvements must be installed and operating on the premises before you apply for a rebate. Submit your application no later than March 31, 2012. *Allow two to eight weeks for application review and funding of approved rebates. Incomplete applications may be delayed or rejected. CFU reserves the right to award rebates in the form of utility bill credits or directly mailed checks.*
- For each project, submit a completed and signed rebate application with receipts and documentation as described below to Cedar Falls Utilities, Attn: Energy Services, P.O. Box 769, Cedar Falls, IA 50613.
- Itemized receipt(s) or paid invoice(s) showing the date of purchase, contractor/vendor name and address and project/equipment cost must be submitted with the rebate application. If the receipt or itemized bill does not show the following information, also submit documentation (such as a product label, package or UPC code) to verify:
 - 1) **For hard-wired fluorescent (CFL) fixtures or light kits** - the brand, model number, type and wattage of each fixture purchased (submitting the original UPC code from each product package meets this requirement).
 - 2) **For LED fixtures (recessed cans only)** – Original UPC code from each product package, in addition to retailer receipt.
- CFU reserves the right to inspect and verify the installation; ask you to complete a customer survey; and/or meter the specified equipment or process, at no cost to the customer, in order to determine the actual energy saved for up to 12 months after the installation. CFU may publicize your participation in this program unless you request otherwise in writing. Rebate application information may be shared with state agencies or departments.
- Projects must comply with all applicable federal, state, and local codes, standards, and regulatory requirements. Limit one rebate payment per piece of qualifying equipment or project expense. All equipment must be new; used or rebuilt equipment is not eligible. Existing equipment must be removed and may not be resold.
- Cedar Falls Utilities:
 - 1) Does not endorse any provider, manufacturer, product, labor or system design by offering this program;
 - 2) Is not responsible for any tax liability arising from customer's receipt of a rebate payment;
 - 3) Does not expressly or implicitly warrant the performance of installed equipment or contractor's quality of work (contact your contractor or vendor for warranty information);
 - 4) Is not responsible for the proper disposal/recycling of any waste generated by this project;
 - 5) Is not liable for any incidental or consequential damages caused by the installation of the equipment or for any damage caused by the malfunction of the installed equipment;
 - 6) Does not guarantee that a specific level of energy or cost savings will result from the implementation of energy efficiency measures or the use of products funded under this program.
