

**Curb Stop** (customer)

Turning this valve allows CFU to stop the flow of water from the main water line to your house.

Keep the box around the curb stop free of debris, so that it can be accessed quickly if urgent repairs are needed.

**Water Meter** (CFU)

**Water Shut-off Valve**

(customer)

Can be used to shut off the water service to your house.

**Water Line** (customer)

Approximate depth six feet

**Water Main**

(CFU)

As a property owner, the water line, curb stop and water shut-off valve are your responsibility if repairs are needed.
